PROFESSIONAL SUMMARY

Backend Engineer with 3+ years of experience building RESTful APIs, backend modules and database-driven web applications using PHP, Laravel, CodeIgniter and MySQL. Experienced in SQL query optimization, server-side validation, API authentication, and third-party and AI/LLM (OpenAI, Gemini) API integrations. Has delivered ERP/CRM modules, GST and income-tax workflows, government-contract projects and AI-powered products while working in both remote and on-site teams.

TECHNICAL SKILLS

Languages: PHP, SQL, JavaScript, Bash
Backend: Laravel, CodeIgniter, RESTful API Design, MVC, OOP, Design Patterns
Databases: MySQL, Database Design, Query Optimization, Indexing, Transactions
Authentication & Security: Laravel Sanctum, JWT, OAuth 2.0, RBAC, Server-side Validation, API Security
Queues & Background Jobs: Laravel Queues, Laravel Horizon, Scheduled Jobs, Webhooks
Integrations: AI APIs, Prompt Engineering, Payment Gateways, Email/SMS APIs, Third-party REST APIs
Cloud & Servers: AWS (EC2, S3, RDS, CloudFront, IAM), Linux, Nginx, CI/CD with GitHub Actions
Tools & Practices: Git, GitHub, Claude Code

PROFESSIONAL EXPERIENCE

Freelance Backend Developer

Self-employed, Remote | Jun 2026 - Present

- Build ERP systems and dynamic business websites for clients using PHP and MySQL.
- Handle hosting setup, domain configuration and production deployment for client applications.

Full Stack Engineer

GrayCyan AI, Canada (Remote) | Dec 2025 - Jun 2026

- Built RESTful APIs and backend features in Laravel and MySQL for the company's web applications.
- Implemented business logic, database operations and third-party API integrations that power application workflows.
- Debugged and resolved application issues and maintained code quality through Git-based workflows and Jira-tracked tasks with cross-functional teams.

Senior Developer

e-Suvidha Technologies, Bhopal (On-site) | Apr 2025 - Nov 2025

- Designed and built backend modules and RESTful APIs in Laravel and MySQL for ERP, GST/income-tax and government-contract projects.
- Optimized SQL queries and added server-side validation, improving application performance and data reliability.
- Diagnosed and fixed bugs in existing modules and shipped feature enhancements following development best practices.

Software Developer

Onlighten Media, Mumbai (Remote) | Apr 2023 - Mar 2025

- Built and maintained web applications using PHP (Laravel, CodeIgniter), MySQL and JavaScript.
- Developed RESTful APIs and backend business logic, and integrated third-party services to meet business requirements.
- Improved application stability by resolving bugs, optimizing SQL queries and maintaining existing modules.

PROJECTS

Shakuntala Healthcare & ITgst
- Developed REST APIs consumed by mobile applications and built ITR and GST workflows.

ERP / CRM Management System
- Built business modules for customer information management, operational workflows and centralized data handling, giving teams one system for day-to-day operations.

Kaizenify - AI-Powered Manufacturing Platform
- Contributed to an internal manufacturing platform that uses AI-assisted workflows to organize operational processes, manage process documentation and make business information easier to access.

Cuevue - AI-Powered Website Engagement Platform
- Worked on website engagement features, including interactive virtual avatars, automated lead capture, appointment booking and multilingual visitor interactions, that help businesses turn website visitors into leads.

AI-Powered Lead Generation & Landing Page Automation
- Built automated workflows for lead generation and landing page creation, integrating external AI services to reduce manual campaign setup.

Configuration Change Monitoring Tool
- Implemented monitoring of configuration files to detect changes and report them for troubleshooting and configuration management.

ACHIEVEMENTS & AWARDS

Innovation Excellence Award | 2025
- Redesigned the core API architecture, improving system response time by 40% and reducing server infrastructure costs; also built automation scripts.

Punctuality & Discipline Excellence Award
- Recognized for consistent conduct and time management throughout academic years.

EDUCATION

Master of Computer Applications (MCA) | 2024 - 2026
University Institute of Technology (UIT), RGPV, Bhopal | CGPA: 7.5

Bachelor of Computer Applications (BCA) | 2021 - 2024
Institute of Computer Science, Vikram University, Ujjain | CGPA: 7.4

Class XII (PCM) | 2021
Saraswati Shishu Vidya Mandir, Khachrod | 87.8%

Class X | 2019
Shri Raj Rajendra School, Khachrod | 88.2%
